

The Group continues to break new ground in adopting new technology. From leveraging new age mobility, to getting futuristic equipment Apollo has always been ahead of the curve. Currently, the group believes in the tremendous potential of robotics and is investing heavily in making it a real and robust option for all. Apollo pioneered Tender Loving Care (TLC) and it continues to be the magic that inspires hope, warmth and a sense of ease in the patients.

Apollo started out with the promise of bringing quality healthcare to India at a price point that Indians could afford. The cost of treatment in Apollo was a tenth of the price in the western world. Today as the group charts out its roadmap to take healthcare to a billion, the focus on driving a strong value proposition remains constant.
